Item 4: Advisory Business

LifePro Asset Management (hereinafter “LifePro Asset Mgmt”) is a Limited Liability Company organized in the state of California. The firm was formed in 2016. The principal owners are Heather Ulz and LifePro Financial Services, Inc. (“LifePro Financial”). The majority (72.49%) owner of LifePro Financial is William Zimmerman. Notably, Mr. Zimmerman is not involved in the day to day management of either LifePro Asset Mgmt or LifePro Financial, and has passive ownership only. Please see our Form ADV Part 1A for additional information concerning the firm’s ownership.

LifePro Asset Mgmt has three service lines for investment advisory services: our standard *Portfolio Management Services*, *LPAM Tactical Investment Strategy Services* and *Financial Planning Services*.

As a fiduciary, we shall exercise our best efforts to act in good faith and in the best interests of the client. Additionally, we provide written disclosure herein of any conflicts of interest, which will or reasonably may compromise our impartiality or independence. The advisor, or any party in which the advisor has a financial interest, does not receive any compensation or other remuneration that is contingent on any client's purchase or sale of a financial product. The advisor can receive a fee or other compensation from another party based on the referral of a client or the client's business only as described below under *Independent Managers*. Please see additional information under Item 5 Fees and Compensation, as well as Item 14 Client referrals.

Portfolio Management Services

LifePro Asset Mgmt offers ongoing Portfolio Management Services on a discretionary basis in accordance with the individual goals, objectives, time horizon, and risk tolerance of each client. LifePro Asset Mgmt creates investment guidelines for each client, which outlines the client’s current situation (income, tax levels, and risk tolerance levels) and then constructs a plan to aid in the selection of a portfolio that matches each client's specific situation. Portfolio management services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

LifePro Asset Mgmt’s *Portfolio Management Services* are tailored to the specific needs of each client. These services are provided to the client by a dedicated LifePro Asset Mgmt Investment Adviser Representative. The investment adviser representative ascertains, in consultation with the client, the client’s financial situation, risk tolerance, and investment objectives as well as other pertinent information. All the investment adviser representatives prepare the client investment objectives. LifePro Asset Mgmt’s investment adviser representatives will at times recommend Independent Managers where appropriate and as described below. Clients may impose reasonable restrictions regarding their investments. The advisor has no conflict of interest to recommend its model portfolios over a third party because the

representative will not receive any additional fee, nor a higher fee simply by placing the client in the *LPAM Tactical Strategies* described further below.

LifePro Asset Mgmt seeks to provide that investment decisions are made in accordance with the fiduciary duties owed to its accounts and without consideration of LifePro Asset Mgmt's economic, investment or other financial interests. To meet its fiduciary obligations, LifePro Asset Mgmt attempts to avoid, among other things, investment or trading practices that systematically advantage or disadvantage certain client portfolios, and accordingly, LifePro Asset Mgmt's policy is to seek fair and equitable allocation of investment opportunities/transactions among its clients to avoid favoring one client over another over time. It is LifePro Asset Mgmt's policy to allocate investment opportunities and transactions it identifies as being appropriate and prudent, including initial public offerings ("IPOs") and other investment opportunities that might have a limited supply, among its clients on a fair and equitable basis over time.

Independent Managers

To address a client's designated investment objectives, investment adviser representatives of LifePro Asset Mgmt will at times recommend that the client allocate a portion or all of his or her investment assets to one or more unaffiliated independent registered investment advisers. Factors that are considered before recommending an independent investment adviser include, but are not limited to: the client's investment objectives, the investment adviser's management style, investment team, performance history, reputation, financial strength, pricing, and investment process. LifePro Asset Mgmt has discretion to choose investment advisers to manage all or a portion of the client's assets. The investment adviser shall have day-to-day responsibility for the discretionary management of the allocated assets, and LifePro Asset Mgmt will continue to render investment advisory services regarding the assets placed with the investment adviser, including the ongoing monitoring and review of account performance and compliance with the client's investment objectives. Clients typically will incur a separate fee from the investment adviser for those services in addition to the fees assessed by LifePro Asset Mgmt. LifePro Asset Mgmt can receive referral fees for recommending particular investment adviser; in such instances, the advisory fee is waived and the client is charged only the *Independent Manager* fee. See further details under Item 5 Fees and Compensation, as well as Item 14, Client Referrals.

Additionally, as part of the firm's Financial Planning Services described below, if deemed to be in the best interest of the client, LifePro Asset Mgmt or our supervised persons will from time to time recommended clients invest in certain insurance products such as fixed annuities. Such products are managed by independent managers for which LifePro Asset Mgmt has no control over the selected manager. LifePro Asset Mgmt recommends clients review any financial product prior to purchase. Clients should be aware that these services pay a commission or other compensation to such representatives and creates a conflict of interest because such representatives have an incentive to make recommendations based on the compensation received rather than on a client's needs. Please note that clients are not obligated to implement any recommendation made by LifePro Asset Mgmt as part of its Financial Planning Services, and should clients choose to implement such recommendations, any subsequent transaction may be placed at

any broker-dealer or insurance agency of client's choosing. Please see additional disclosures related to insurance activity under Item 10: Other Financial Industry Activities and Affiliations.

AssetMark, Inc.

LifePro Asset Mgmt offers asset allocation and advisory services sponsored by AssetMark, Inc. ("AssetMark"). Under the adviser model, LifePro Asset Mgmt and its representatives offer AssetMark's asset allocation system, in which clients are introduced to investment managers who provide discretionary management of individual portfolios of equity and/or fixed income securities. Clients may also invest in model portfolios of mutual funds, exchange traded funds ("ETFs") and variable annuity sub-accounts created and maintained by institutional investment strategists. LifePro Asset Mgmt and its representatives do not have any responsibility or authority to determine which investment managers are made available in the AssetMark platform, or to add or remove investment managers from that platform. In addition, LifePro Asset Mgmt and its representatives have no responsibility to determine how AssetMark or the investment managers allocate client assets, to buy or sell securities or other investments for client accounts, or to select broker-dealers with which transactions will be effected. All decisions with respect to the availability of investment managers and other service providers will be made by AssetMark. The selection of specific investment managers and broker-dealers used in connection with a specific client account will be made by the client during the account opening process or subsequently by providing authorization of any such selection to LifePro Asset Mgmt and/or AssetMark. Trading authorization will be granted by client to AssetMark or another portfolio strategist under the terms of the investment advisory agreement governing the AssetMark program. The following AssetMark investment advisory programs and services are currently offered through LifePro Asset Mgmt:

Mutual Fund, Exchange Traded Fund and Variable Annuity Accounts. AssetMark has contracted with a number of institutional investment management firms ("Strategists") to create a variety of asset allocation model portfolios ("Models") using open-end mutual funds, ETFs or variable annuity subaccounts from certain variable annuity companies. The LifePro Asset Mgmt representative will assist the client choose the Model(s) and the Strategist(s) for the client's account. The ultimate decision regarding choice of Strategist(s) and Model(s), as well as the mutual funds, ETFs or variable annuity sub-accounts is made by the client. The minimum investment required is generally \$50,000 for mutual fund and variable annuity accounts and \$100,000 for ETF accounts, but smaller accounts may be accepted at AssetMark's discretion.

Privately Managed Accounts. AssetMark has contracted with a number of institutional investment management firms ("Investment Managers") to provide discretionary management services to clients. The LifePro Asset Mgmt representative will assist the client in selecting one or more Investment Managers and/or mutual funds based on their investment objectives. The standard minimum investment per Investment Manager generally is between \$100,000 and \$250,000, and will depend on the custodian and Investment Manager(s) selected for the account. AssetMark may accept certain investments below these minimums at its discretion.

LWI Financial Inc. (“Loring Ward”)

LifePro Asset Mgmt retains an independent third-party account administrator (LWI Financial Inc. or “Loring Ward”) that performs certain services such as account administration, portfolio allocation analysis, back-office fulfillment, report and statement production, and billing services. Such services are paid for directly through advisory fees billed to the client or are indirectly paid by LifePro Asset Mgmt. Loring Ward is an investment adviser registered with the Securities and Exchange Commission.

Loring Ward does not have discretion over client assets. The client designates the broker-dealer and custodian to execute transactions in his/her account from among those broker-dealer custodians that have an existing relationship with Loring Ward. Loring Ward requires that a client designate a custodian from among Pershing Advisor Solutions LLC, Fidelity Brokerage Services LLC, Charles Schwab & Company, Inc., or TD Ameritrade Institutional. Neither LifePro Asset Mgmt nor Loring Ward seeks better execution services or prices from brokers or dealers other than that chosen by the client, which may result in the client paying higher commissions, transaction costs or spreads, or receiving less favorable net prices on transactions for the client’s account.

Loring Ward may also sponsor educational seminars for the benefit of LifePro Asset Mgmt and its clients. Such educational seminars provide LifePro Asset Mgmt with access to information and ideas regarding practice development, client servicing, investment strategy, relationship management and financial planning. Attendance expenses associated with such educational seminars may be paid or reimbursed, either in whole or in part, by Loring Ward.

LifePro Asset Mgmt may recommend, where appropriate, that client invest in shares of the SA Funds – Investment Trust (the “SA Funds”), a family of ten asset class mutual funds that are advised, managed, and administered by Loring Ward. Loring Ward does not charge fees directly on investments into the SA Funds because Loring Ward receives certain fees and expenses directly from the SA Funds, as disclosed in each SA Fund’s prospectus.

American Funds

We also offer investment advisory program to our clients through American Funds in which clients may invest in Class F-2 shares of the American Funds. Based on the client’s individual circumstances and needs, we will identify whether the Class F-2 share is appropriate for that client. Factors considered in making this determination include account size, risk tolerance, the opinion of each client and the investment philosophy of the selected registered investment adviser. Clients should refer to www.americanfunds.com for a full description of the services offered. We are available to meet with clients on a regular basis, or as determined by the client, to review the account.

We monitor the performance of the F-2 shares and will assess on an ongoing basis the investment alternatives and choices with American Funds to ensure the risk level of the portfolio is appropriate for the client.

Class F-2 shares are designed for investors who choose to compensate their financial professional based on the total assets in their portfolios, rather than commissions or sales charges. This arrangement is often called an “asset-based” or a “fee-based” program. Class F-2 shares do not have an up-front or a contingent deferred sales charge. Class F-2 shares also do not carry a 12b-1 fee but may have slightly higher administrative expenses than other shares. These expenses will vary among the funds. Note that Class F-2 shares are not available for purchase in certain employer-sponsored retirement plans, unless they are a part of a qualifying fee-based program.

Security Benefit

Security Benefit offers retirement plan services for various retirement accounts including: 401(k), 401(a), 403(b), 457; and Voluntary Employees' Beneficiary Association (VEBA) trust programs qualified under Section 501(c)(9) of the Internal Revenue Code. Services are offered through and securities distributed by Security Distributors, a subsidiary of Security Benefit Corporation (Security Benefit). Please see additional disclosures in the firm's supplemental documentation.

The Pacific Financial Group (“PFG”)

The Pacific Financial Group (“PFG”), specializes in connecting advisors to the 401K market by utilizing established custodian relationships. PFG was founded in 1984 on the principle that everyone should have access to quality, independent investment advice and a comprehensive financial plan. Please see additional disclosures in PFG's separate disclosures and supplemental documentation.

Services Limited to Specific Types of Investments

LifePro Asset Mgmt generally limits its investment advice to mutual funds, fixed income securities, real estate funds (including REITs), equities, ETFs, treasury inflation protected/inflation linked bonds, non-U.S. securities, and options. LifePro Asset Mgmt may use other securities as well to help diversify a portfolio when applicable. Additionally, LifePro Asset Mgmt will recommended as part of its Financial Planning Services additional products such as fixed annuities if such products are deemed to be in the best interest of the client. Fixed business is not included in the asset management fee calculation.

Client Tailored Services and Client Imposed Restrictions

LifePro Asset Mgmt will tailor a program for each individual client. This will include an interview session to get to know the client's specific needs and requirements as well as a plan that will be executed by LifePro Asset Mgmt on behalf of the client. LifePro Asset Mgmt may use “model portfolios” together with a specific

set of recommendations for each client based on their personal restrictions, needs, and targets. Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent LifePro Asset Mgmt from properly servicing the client account, or if the restrictions would require LifePro Asset Mgmt to deviate from its standard suite of services, LifePro Asset Mgmt reserves the right to end the relationship.

LifePro Asset Mgmt will incorporate a client's total financial experience, from earned income, investments, health care and other liabilities to social security, qualified plans, life insurance and fixed annuities. These services will allow advisors to gain a holistic understanding of their client's: 1) Financial needs, 2) Current and projected health care costs, 3) Social Security benefits, 4) Risk tolerance profile of the client, 5) What clients are afraid of, and 6) Scenario analysis and planning portal.

Wrap Fee Programs

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs, fund expenses, and other administrative fees. LifePro Asset Mgmt does not offer any wrap fee programs at this time.

LPAM Tactical Investment Strategy

LifePro Asset Mgmt also makes available to clients our LPAM Tactical Investment Strategy services on a discretionary basis. While our LPAM Tactical Investment Strategies provide similar services to those provided in our Portfolio Management Services – including the creation of customized investment guidelines, clients participating in the LPAM Tactical Investment Strategy are able to select among LifePro Asset Mgmt's diversified model portfolios, comprised of multiple securities including equities, fixed income instruments and mutual funds. LifePro Asset Mgmt strives to offer an assortment of model portfolios capable of meeting the various risk tolerances and investment objectives of our clients, and we retain complete discretion over which model portfolios are available at any given time. LPAM Tactical Investment Strategy accounts are implemented via the custody platform at either TD Ameritrade Institutional, a division of TD Ameritrade, Inc., ("TD Ameritrade"), or Charles Schwab & Co., Inc. ("Schwab"), both federally registered with the Securities Exchange Commission and FINRA-registered broker-dealers and members of SIPC.

Financial Planning

LifePro Asset Mgmt's Financial Planning Services are provided to clients regarding the management of their financial resources and are based upon an analysis of individual client needs. The services range from comprehensive financial planning to more focused consultations, depending on the needs of each client. LifePro Asset Mgmt first collects pertinent information about the client's financial circumstances and objectives. LifePro Asset Mgmt then reviews and analyzes the information provided, and generates a financial plan containing recommendations designed with time horizon focused asset allocation with the

intention of achieving the clients' stated financial goals and objectives. Financial plans and financial planning may include, but are not limited to: investment planning; life insurance; tax concerns; retirement planning; college planning; and debt/credit planning.

Financial plans are based on the client's financial situation at the time the plan is presented and are based on the information disclosed by the client to LifePro Asset Mgmt. Clients are advised that certain assumptions are made with respect to interest and inflation rates, use of past trends and performance of the market and economy. Past performance is in no way an indication of future performance. LifePro Asset Mgmt cannot offer any guarantees or promises that the client's financial goals and objectives will be met.

In offering financial planning, a conflict exists between the interests of the investment adviser and the interests of the client. The client is under no obligation to act upon the investment adviser's recommendation, and, if the client elects to act on any of the recommendations, the client is under no obligation to effect the transaction through LifePro Asset Mgmt or any of its investment adviser representatives.

Assets Under Management

As of January 31, 2020, LifePro Asset Mgmt actively manages \$131,312,334 of clients' assets, all of which on a discretionary basis. Additionally, LifePro Asset Mgmt advises on \$10,144,009 of assets managed by third parties. LifePro Asset Mgmt has a total of assets under administration of \$141,456,343.

Item 5: Fees and Compensation

The fees for all three of our investment advisory service lines (standard *Portfolio Management Services*, *LPAM Tactical Investment Strategy* and *Financial Planning Services*) are set forth immediately below. In computing the market value of any investment of the account, the securities in the account listed on a national securities exchange or otherwise subject to current last sale reporting shall be valued at the amount reported on the statement that client receives from the custodian. Such securities which are not traded nor subject to last sale reporting shall be valued at the latest available bid price reflected by quotations furnished to LifePro Asset Mgmt by such sources as it may deem appropriate and reasonable. Any other security shall be valued in such manner as shall be determined in good faith by LifePro Asset Mgmt and client to reflect its fair market value.

Portfolio Management Fees

LifePro Asset Mgmt's annual fee for standard Portfolio Management Services is billed in arrears on a tiered schedule based upon a percentage (%) of the market value of the assets under our management as follows:

<u>Total Assets Under Management</u>	<u>Annual Fees</u>
\$0 - \$1,999,999	1.00% - 1.40%
\$2,000,000 - \$4,999,999	0.80% - 1.20%
\$5,000,000 and Above	0.60% - 1.00%

These fees are generally negotiable per the size of the client account, needs of the clients and expectations of future work. The final fee schedule is included as part of the client's Investment Advisory Contract. LifePro Asset Mgmt uses an average of the daily balance in the client's account throughout the billing period, after taking into account deposits and withdrawals, for purposes of determining the market value of the assets upon which the advisory fee is based.

LifePro Asset Mgmt will not be compensated on the basis of a share of capital gains upon or capital appreciation of the clients assets under management. Further, assets under management do not include products that may be recommended or sold to Client by advisory representatives of LifePro Asset Mgmt, including insurance and/or annuity products. The account minimum of \$50,000 is imposed by LifePro Asset Mgmt.

Clients may terminate the agreement without penalty within five business days of signing the agreement.

Fees may be higher for this service but lower fees for comparable services may be available from other sources.

LPAM Tactical Investment Strategy

LifePro Asset Mgmt's annual fees for LPAM Tactical Investment Strategies are separate from the Portfolio Management Fees. Clients should carefully review their Advisory Contract for a description of all applicable fees. Our annual fee for LPAM Tactical Investment Strategies are collected in arrears on a tiered schedule, based upon a percentage (%) of the market value of the assets under our management as follows:

<u>Total Assets Under Management</u>	<u>Annual Fees</u>
\$0 - \$1,999,999	1.00%
\$2,000,000 - \$4,999,999	0.80%
\$5,000,000 and Above	0.60%

LifePro Asset Mgmt uses an average of the daily balance in the client's account throughout the billing period, after taking into account deposits and withdrawals, for purposes of determining the market value of the assets upon which the advisory fee is based.

These fees are generally not negotiable. In certain circumstances we may reduce or lower the fee. The account minimum of \$50,000 is imposed by LifePro Asset Mgmt.

The final fee schedule is included as part of the client's Investment Advisory Contract. Fees may be higher for this service but lower fees for comparable services may be available from other sources.

Payment of Fees Relating to Portfolio Management and LPAM Tactical Investment Strategy Services

Asset-based fees are withdrawn directly from the client's accounts with client's written authorization on a monthly or quarterly basis. Fees are paid in arrears. Should a client open an account during the month, LifePro Asset Mgmt's fees will be prorated based on the number of days the account was open during the month. In the event LifePro Asset Mgmt's services are terminated mid-month, any earned, unpaid fees will be immediately due. The number of days the account was managed during the month until termination is used to determine the amount of the management fee owed, if any, upon termination.

All of LifePro Asset Mgmt's affiliated investment adviser representatives operate on an independent basis and their affiliation is contingent on our ability to properly supervise the advisory operations of the independent advisor and ensure that the advisor and their advisory operation are following the compliance, due diligence and fiduciaries standards that we require from advisors affiliating with LifePro Asset Mgmt.

The LifePro Asset Management "Portfolio Management Services" platform is separate and distinct from the LPAM Tactical Investment Strategy. Each advisor affiliated with our firm is an independent advisor and has the ability to pick and choose from a variety of third-party investment management options for their clients. LifePro Asset Mgmt has made it clear that affiliated advisors receive no preferential treatment and/or additional compensation for selecting LPAM Tactical Investment Strategy services over any other third-party investment manager. The LPAM Tactical Investment Strategy constructs and manages portfolios based on each client's specific needs. Unlike traditional one-size-fits-all mutual funds, our services tailor each client's portfolio specifically to the needs, wants and wishes of each individual client.

Financial Planning Fees

The negotiated fixed rate for creating client financial plans is between \$2,500 and \$5,000. Fees typically range based upon the complexity of assets, number of areas analyzed, depth of analysis required, or other unique reasons agreed to by the parties. These fees may be negotiated at the discretion of the investment adviser representative and are generally based on the level of complexity involved with the planning.

Certain investment adviser representatives of LifePro Asset Mgmt may provide Financial Planning Services. Clients pay an initial deposit of 50% of the total fee upon signing of the contract, with the remainder due upon execution of the Financial Planning Agreement (never exceeding six months).

Most clients choose to pay the Financial planning fees directly, are paid via check or credit card. An invoice for services is issued on completion of the written analysis, which is payable upon receipt. Upon completion, LifePro Asset Mgmt will deliver the plan to the client. In all instances the financial plan will be completed within six (6) months of engagement. Under no circumstances do we require or solicit payment of fees in excess of \$1,200 more than six months in advance of services rendered.

In the case of early termination prior to completion of the plan, LifePro Asset Mgmt will deliver that portion of the plan which has been prepared. Clients may terminate the agreement without penalty, for full refund of LifePro Asset Mgmt's fees including fees paid in advance, within five business days of signing the Financial Planning Agreement. Thereafter, clients may terminate the Financial Planning Agreement upon thirty (30) days written notice.

Lower fees for comparable services may be available from other sources.

General Information

Termination of the Advisory Relationship

A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days written notice. As disclosed above, Financial Planning fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded and no more than 30 days. When applicable, in calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

Mutual Fund Fees

Clients are responsible for the payment of all third-party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.). Client assets invested in mutual funds will be subject to certain fees and expenses imposed directly by mutual funds to their shareholders, which shall be described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the sponsor also imposes sales charges, a client could pay initial or deferred sales or surrender charges. In addition, client assets invested with third-party investment advisers recommended by LifePro Asset Mgmt will be subject to management fees charged by those investment advisers.

Third Party Manager Fees

Client account assets invested with Third Party Managers will have that fee assessed directly by the Third Party Manager in accordance with their respective billing terms. **Please read the Third Party Manager's disclosures and account applications completely.** Third Party Manager fees are detailed in their respective Form ADV Disclosure Brochure, and are not determined by LifePro Asset Mgmt. Fees paid to Third Party Managers are in lieu of any LPAM Tactical Investment Strategy Fees. At times, certain Third Party Managers will also debit LifePro Asset Mgmt's Portfolio Management Fees. 2.4% is the maximum amount charged regardless of whether the account is internally managed or outsourced to a third-party manager. LifePro Asset Mgmt does receive fees by certain Third Party Managers, either in the form of our advisory fee or in the form of a solicitation fee. In such instances the client is only charged one fee by the Independent Manager in which LifePro will receive a portion of those charges. See additional information listed below as well as Item 14 Client Referrals.

The fees mentioned below are separate and distinct from the fees charged by LifePro Asset Mgmt. Accordingly, the client should review the fees charged by any investment adviser, mutual funds and/or third party providers in which the client's assets are invested, together with the fees charged by LifePro Asset Mgmt, to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

AssetMark Program Fees and Compensation

For AssetMark programs, the client will pay an ongoing investment management fee ("Management Fee") that varies by program, which includes a maximum fee of 1.40%. Fees are negotiable and may vary due to different factors, including the type of program, portfolio, and/or asset allocation, as well as the size of the account and/or overall client relationship. The fee is calculated and billed quarterly in advance based on the value of the assets in the client's account on the last day of the previous calendar quarter. For new accounts, the fee is prorated when the account is opened for the rest of the quarter. The custodian bills the client's account for the fee, keeps its portion for custodial services, and pays the rest of the fee to AssetMark. Additionally, clients may pay more or less for services in AssetMark's asset management programs than if they purchased similar services separately.

American Funds

American Fund Service Company ("AFS") shall deduct fees from client accounts (100 basis points-flat). Fees shall be calculated by AFS for each quarterly period ending in the last business day of February, May, August, and November and shall be the product of (i) the flat rate selected by the firm; (ii) the average daily net asset value of the client's assets invested in F-2 shares of the funds through the Program during the quarter; divided by (iii) the number of days in the year multiplied by the number of days in the quarter. The fees shall be paid within 30 days following the end of the

quarter for which fees are payable. Please see additional disclosures in the firm's supplemental documentation.

Security Benefit

Security Benefit shall deduct fees from client accounts directly. The fees will be computed at an annual rate equal to 0.75% of the average daily value paid monthly in arrears. Please see additional disclosures in the firm's supplemental documentation.

The Pacific Financial Group

The Pacific Financial Group ("PFG") shall deduct fees from client accounts directly. Depending on the type of account, the fees will be computed at either: (i) an annual rate equal to 0.75% of the average daily net asset value of the shares of such fund paid monthly in arrears for Managed Strategists & Self Directed Brokerage Accounts; or (ii) an annual rate up to 1.0% of the average daily value paid quarterly in advance for Separately Managed Accounts, VA or Core accounts. Please see additional disclosures in the firm's supplemental documentation.

Outside Compensation

Neither LifePro Asset Mgmt nor its representatives receive outside compensation for the sale of securities.

Individuals employed directly with LifePro Financial Services, Inc. may receive compensation for advisory services rendered in the format of bonus structure based on new accounts and retention of existing accounts.

LifePro Asset Mgmt or our supervised persons will from time to time recommended clients invest in certain insurance products such as fixed annuities, if deemed to be in the best interest of the client. LifePro Asset Mgmt recommends clients review any financial product prior to purchase. Clients should be aware that these services pay a commission or other compensation to such representatives and creates a conflict of interest because such representatives have an incentive to make recommendations based on the compensation received rather than on a client's needs. Please note that clients are not obligated to implement any recommendation made by LifePro Asset Mgmt as part of its Financial Planning Services, and should clients choose to implement such recommendations, any subsequent transaction may be placed at any broker-dealer or insurance agency of client's choosing. Please see additional disclosures related to insurance activity under Item 10: Other Financial Industry Activities and Affiliations.

Item 6: Performance-Based Fees and Side-By-Side Management

LifePro Asset Mgmt does not accept performance-based fees (*i.e.*, fees calculated based on a share of capital gains upon or capital appreciation of the funds or any portion of the funds of an advisory Client) or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7: Types of Clients

LifePro Asset Mgmt generally provides advisory services to the following types of clients:

- Individuals
- High-Net-Worth Individuals
- Charitable Organizations

Our firm's account minimum is \$50,000.⁰⁰ for any of LifePro Asset Mgmt's services. However, LifePro Asset Mgmt reserves the right to negotiate this minimum and accept or decline a potential client for any reason in its sole discretion. There may be times when certain restrictions are placed by a client, which prevents LifePro Asset Mgmt from accepting or continuing to manage the account.

Item 8: Methods of Analysis, Investment Strategies, & Risk of Loss

Methods of Analysis

LifePro Asset Mgmt uses a variety of analytical information to assist with its security analysis. LifePro Asset Mgmt's methods of analysis include Charting analysis, Cyclical analysis, Fundamental analysis, Modern portfolio theory, Quantitative analysis, Technical analysis, Tactical Opportunity Investment Strategy, Tactical Dividend Growth Investment Strategy, Tactical Income Investment Strategy and Tactical Capital Preservation Investment Strategy

Charting analysis involves the use of patterns in performance charts. LifePro Asset Mgmt uses this technique to search for patterns used to help predict favorable conditions for buying and/or selling a security. The risk involved in using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

Cyclical analysis involves the analysis of business cycles to find favorable conditions for buying and/or selling a security. Thus, the analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold: 1) the markets do not always repeat cyclical patterns; and 2) if too many investors begin to implement this strategy, then it changes the very cycles these investors are trying to exploit.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages and concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Modern portfolio theory is a theory of investment that attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, each by carefully choosing the proportions of various asset. The theory assumes that investors are risk adverse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one. Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more risk. The exact trade-off will be the same for all investors, but different investors will evaluate the trade-off differently based on individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better expected returns.

Quantitative analysis deals with measurable factors as distinguished from qualitative considerations such as the character of management or the state of employee morale, such as the value of assets, the cost of capital, historical projections of sales, and so on. Investment strategies using quantitative models may perform differently than expected as a result of, among other things, the factors used in the models, the weight placed on each factor, changes from the factors' historical trends, and technical issues in the construction and implementation of the models.

Technical analysis involves the analysis of past market data; primarily price and volume which attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not take into account new patterns that emerge over time.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Selection of Other Advisers: Although LifePro Asset Mgmt will seek to select only money managers who will invest clients' assets with the highest level of integrity, LifePro Asset Mgmt's selection process cannot ensure that money managers will perform as desired and LifePro Asset Mgmt will have no control over the day-to-day operations of any of its selected money managers. LifePro Asset Mgmt would not necessarily

be aware of certain activities at the underlying money manager level, including without limitation a money manager's engaging in unreported risks, investment "style drift" or even regulatory breaches or fraud.

Tactical Opportunity Investment Strategy is designed for investors that are focused on targeting positive absolute returns. It focuses on companies that are positioned to benefit from long term secular growth, have a strong competitive moat and are led by management teams with a strong track of execution. The LifePro Asset Mgmt Tactical Opportunity Investment Strategy is tactical and seeks to generate investment returns greater than the S&P 500. This investment strategy is designed for investors that view risk opportunistically.

Tactical Dividend Growth Investment Strategy is designed for investors that want income growth while targeting long term capital appreciation. This investment strategy targets companies that have a proven track record of consistently paying and growing dividends paid to investors. We target companies that have the aforementioned characteristics and are backed by a healthy balance sheet, strong free cash flow and a management team with a proven track record. This investment strategy is active in nature and designed for an investor with medium risk tolerance.

Tactical Income Investment Strategy is designed for investors that are looking for a healthy balance of income and capital gains while keeping a lid on volatility. Investments in this strategy seeks to maximize income generation by targeting companies with a strong record of management execution, dividend growth, a safe balance sheet and are available at a reasonable price. This investment strategy is active in nature and designed for an investor with medium risk tolerance.

Tactical Capital Perseveration Investment Strategy is designed for conservative minded investors that seek an investment strategy that delivers capital preservation while delivering income over and above the 10-year US Treasury yield. This investment strategies primary focus is on delivering low volatility and capital preservation while minimizing the risks from rising interest rates and inflation via income maximization. This investment strategy is a tactical strategy that seeks to minimize turnover but will also use our tactical authority to minimize the impact of rising interest rates to investors. The Tactical Capital Preservation Investment Strategy is designed for investors with low risk tolerance.

Risks of Specific Securities Utilized

Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk. Clients should understand that investing in any securities, including mutual funds, involves a risk of loss of both income and principal.

Clients should be aware that there is a material risk of loss using any investment strategy. The investment types listed below (leaving aside Treasury Inflation Protected/Inflation Linked Bonds) are not guaranteed or insured by the FDIC or any other government agency.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Market Risk: Either the stock market as a whole, or the value of an individual company, goes down resulting in a decrease in the value of client investments. This is also referred to as systemic risk.

Management Risk: Client's investment varies with the success and failure of our investment strategies, research, analysis and determination of portfolio securities. If our investment strategies do not produce the expected returns, the value of the investment will decrease.

Mutual Funds: Investing in mutual funds carries the risk of capital loss and thus you may lose money investing in mutual funds. All mutual funds have costs that lower investment returns. The funds can be of bond "fixed income" nature (lower risk) or stock "equity" nature.

Equity investment generally refers to buying shares of stocks in return for receiving a future payment of dividends and/or capital gains if the value of the stock increases. The value of equity securities may fluctuate in response to specific situations for each company, industry conditions and the general economic environments.

Fixed income investments generally pay a return on a fixed schedule, though the amount of the payments can vary. This type of investment can include corporate and government debt securities, leveraged loans, high yield, and investment grade debt and structured products, such as mortgage and other asset-backed securities, although individual bonds may be the best known type of fixed income security. In general, the fixed income market is volatile and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk, and credit and default risks for both issuers and counterparties. The risk of default on treasury inflation protected/inflation linked bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal. Risks of investing in foreign fixed income securities also include the general risk of non-U.S. investing described below.

Exchange Traded Funds (ETFs): An ETF is an investment fund traded on stock exchanges, similar to stocks. Investing in ETFs carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Areas of concern include the lack of transparency in products and increasing complexity, conflicts of interest and the possibility of inadequate regulatory compliance. Precious Metal ETFs (e.g., Gold, Silver, or Palladium Bullion backed "electronic shares" not physical metal) specifically may be negatively impacted by several unique factors, among them (1) large sales by the official sector which own a significant portion of aggregate world holdings in gold and other precious metals, (2) a significant increase in hedging activities by producers of gold or other precious metals, (3) a significant change in the attitude of speculators and investors.

Real estate funds (including REITs) face several kinds of risk that are inherent in the real estate sector, which historically has experienced significant fluctuations and cycles in performance. Revenues and cash flows may be adversely affected by: changes in local real estate market conditions due to changes in national or

local economic conditions or changes in local property market characteristics; competition from other properties offering the same or similar services; changes in interest rates and in the state of the debt and equity credit markets; the ongoing need for capital improvements; changes in real estate tax rates and other operating expenses; adverse changes in governmental rules and fiscal policies; adverse changes in zoning laws; the impact of present or future environmental legislation and compliance with environmental laws.

Annuities are a retirement product for those who may have the ability to pay a premium now and want to guarantee they receive certain monthly payments or a return on investment later in the future. Annuities are contracts issued by a life insurance company designed to meet requirement or other long-term goals. An annuity is not a life insurance policy. LifePro Asset Management will at time recommend to clients fixed annuities. There exist certain risks with obtaining fixed annuities similar to the risks described for “fixed income” products above. This product is part of your financial planning service recommendations but are not included in your asset management fee calculation. Annuity guarantees rely on the financial strength and claims-paying ability of the issuing insurance company. Annuities are insurance products that may be subject to fees, surrender charges and holding periods which vary by carrier. Annuities are NOT FDIC insured.

Non-U.S. securities- present certain risks such as currency fluctuation, political and economic change, social unrest, changes in government regulation, differences in accounting and the lesser degree of accurate public information available.

Options Risk: For certain clients, LifePro Asset Mgmt employs the use of options for hedging purposes. For example, we may buy put options if a client owns a stock in order to help reduce market risk of a large loss in the position. While options do carry certain risks, LifePro Asset Mgmt does not invest client assets in options other than for such hedging purposes. The following risks are associated with these types of transactions:

- *Options:* An option is a contract to buy or sell a specific financial product officially known as the option's underlying instrument or underlying interest. For equity options, the underlying instrument is a stock, ETF, or similar product. The contract itself is very precise. It establishes a specific price, called the strike price, at which the contract may be exercised, or acted on. It also has an expiration date. When an option expires, it no longer has value and no longer exists. Options come in two varieties, calls and puts, and you can buy or sell either type. Call contracts will expire worthless if the underlying security closes below the strike price on expiration. Put contracts will expire worthless if the underlying security closes above the strike price on expiration. Selling a covered call may limit the upside if the underlying security closes above the strike price on expiration. Special tax rules may apply, depending on the outcome.
- *Option buying:* This is a basic options strategy where investors buy a call or put option with the hope that the price of the underlying stock will move far enough to cover the premium paid for the option.

- *Option writing*: Investors can sell options in order to obtain additional income from premiums paid by the option buyer. Option writing is often associated with the investment strategy known as covered call writing. Covered calls limit the upside of a stock holding.
- *Uncovered Options and Spreading Strategies*: Uncovered options trading can be riskier than writing covered call options. The potential loss is theoretically unlimited. An option spread involves combining two different option strikes as part of a limited risk strategy.

Past performance is not indicative of future results. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

Neither the firm nor the management persons have been involved in a legal or disciplinary event nor any administrative proceedings to report. Certain investment adviser representatives have disclosures, please see their respective Form ADV 2B Brochure Supplement for further details.

Item 10: Other Financial Industry Activities and Affiliations

Neither LifePro Asset Mgmt nor its representatives are registered as, or have pending applications to become, a broker/dealer or a representative of a broker/dealer.

Neither LifePro Asset Mgmt nor its representatives are registered as or have pending applications to become either a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

Additionally, neither LifePro Asset Mgmt nor its representatives have any relationship or arrangements with any of the following municipal securities dealer, or government securities dealer or broker; an investment company or other pooled investment vehicle (e.g. mutual fund, private fund, etc.); a futures commission merchant, commodity pool operator, or commodity trading advisor; a banking or thrift institution; an accountant or accounting firm; a lawyer or law firm; a pension consultant; a real estate broker or dealer; or a sponsor or syndicator of limited partnerships.

Selection of Other Advisers or Managers

LifePro Asset Mgmt has discretion to choose third-party investment advisers to manage all or a portion of the client's assets. Clients will pay LifePro Asset Mgmt its standard fee in addition to the standard fee for the advisers to which it directs those clients. This relationship will be memorialized in each contract between LifePro Asset Mgmt and each third-party advisor. The fees will not exceed any limit imposed by

any regulatory agency. LifePro Asset Mgmt will always act in the best interests of the client, including when determining which third-party investment adviser to recommend to clients. LifePro Asset Mgmt will ensure that all recommended advisers are licensed or notice filed in the states in which LifePro Asset Mgmt is recommending them to clients.

Other Investment Advisers or Financial Planners

Certain representatives are dual registered with other unaffiliated Registered Investment Adviser(s). There are no referral arrangements between our firms and no client is obligated to use the advisory services of either entity. These representatives must act in the best interests of the client, including when determining which investment adviser to recommend to clients. LifePro Asset Mgmt will ensure that these unaffiliated advisers are licensed or notice filed in the states in which any shared clients may reside.

Insurance Activity

As mentioned in Item 4 above, LifePro Asset Mgmt is solely owned by LifePro Financial Services, Inc. LifePro Financial, among other services, is an insurance agency (License #0A96375) that markets/wholesales life insurance and fixed annuities to third-party insurance agents in exchange for a marketing and/or override fee from the issuer of such insurance/fixed annuity products. Outside of her activities at LifePro Asset Mgmt, Mrs. Ulz (LifePro Asset Mgmt's CEO) serves as a minority equity holder and the CEO of LifePro Financial. As CEO of LifePro Financial, Mrs. Ulz is responsible for setting the strategic direction of LifePro Financial, as well as running the day-to-day responsibilities of LifePro Financial. Mrs. Ulz is also a minority owner of LifePro Financial and as such participates in the profits and losses of LifePro Financial. While Mrs. Ulz devotes as much time to the business and affairs of LifePro Asset Mgmt as is necessary to perform her duties as CEO and an investment adviser representative, her activities with LifePro Financial represent a substantial amount of Mrs. Ulz time and compensation. To help mitigate the conflicts, LifePro Asset Mgmt has implemented certain controls, including supervisory procedures to oversee and monitor the services provided by Mrs. Ulz to LifePro Asset Mgmt clients, in addition to performing periodic due diligence reviews on Mrs. Ulz's outside business activities.

Additionally, certain representatives of LifePro Asset Mgmt, serve in a separate capacity as licensed insurance agents with LifePro Financial and/or other insurance agencies, and from time to time, will offer LifePro Asset Mgmt clients advice or products from those activities. Typically, such recommendations are made as part of a client's financial plan. Clients should be aware that these services pay a commission or other compensation to such representatives and creates a conflict of interest because such representatives have an incentive to make recommendations based on the compensation received rather than on a client's needs. As part of LifePro Asset Mgmt's fiduciary duty to clients, LifePro Asset Mgmt and its representatives strives to, at all times, put the interests of the clients first. Consequently, recommendations are only made to the extent that they are reasonably believed to be in the best interests of the client. Additionally, the conflicts surrounding the outside business activities and additional compensation are disclosed to clients at the time of entering into an advisory or financial planning agreement, mainly through the delivery of this Brochure. Clients are in no way required to act upon such recommendations made by LifePro Asset Mgmt

or any of its representatives and as such, the client is under no obligation to effect the transactions through LifePro Financial, or through any representative of LifePro Asset Mgmt.

CONFLICT OF INTEREST DISCLOSURE: LifePro Asset Mgmt endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser, as such we have taken the following steps to address this conflict:

- we ensure disclosure to clients includes the existence of all material conflicts of interest and additionally advise that they are not obligated to purchase recommended investment products from our employees or affiliated companies;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- our firm's management conducts regular reviews of each client account to verify that all recommendations made to a client are suitable to the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by our firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

LifePro Asset Mgmt has a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. LifePro Asset Mgmt's Code of Ethics is available free upon request to any client or prospective client. Please see the cover page for our contact information.

LifePro Asset Mgmt does not recommend that clients buy or sell any security in which a related person to LifePro Asset Mgmt or LifePro Asset Mgmt has a material financial interest.

From time to time, representatives of LifePro Asset Mgmt may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of LifePro Asset Mgmt to buy or sell the same securities before or after recommending the same securities to clients resulting in

representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. LifePro Asset Mgmt LifePro Asset Mgmt will never engage in trading that operates to the client's disadvantage if representatives of LifePro Asset Mgmt buy or sell securities at or around the same time as clients. Additionally, LifePro Asset Mgmt will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

We have established the following policies and procedures for implementing our firm's Code of Ethics, to ensure our firm complies with its regulatory obligations and provides our clients and potential clients with full and fair disclosure of such conflicts of interest:

- No principal or employee of our firm may buy or sell securities for their personal portfolio(s) where their decision is a result of information received as a result of his or her employment unless the information is also available to the investing public.
- Our firm requires prior approval for any IPO or private placement investments by related persons of the firm.
- We require delivery and acknowledgment of the Code of Ethics by each supervised person of our firm.
- Any individual who violates any of the above restrictions may be subject to termination.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker/Dealers

Custodians/broker-dealers will be recommended based on LifePro Asset Mgmt's duty to seek "best execution," which is the obligation to seek execution of securities transactions for a client on the most favorable terms for the client under the circumstances. Clients will not necessarily pay the lowest commission or commission equivalent, and LifePro Asset Mgmt may also consider the market expertise and research access provided by the broker-dealer/custodian, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers that may aid in LifePro Asset Mgmt's research efforts. LifePro Asset Mgmt will never charge a premium or commission on transactions, beyond the actual cost imposed by the broker-dealer/custodian.

LifePro Asset Mgmt will require clients to use either TD Ameritrade or Schwab. The clients will not be allowed to direct brokerage to other broker-dealers/custodians. LifePro Asset Mgmt is independently owned and operated and not affiliated with Schwab or TD Ameritrade. Schwab and TD Ameritrade will hold

our clients' assets in a brokerage account and buy and sell securities when LifePro Asset Mgmt instructs them to.

Research and Other Soft-Dollar Benefits

While LifePro Asset Mgmt has no formal soft dollars program in which soft dollars are used to pay for third party services, LifePro Asset Mgmt may receive research, products, or other services from custodians and broker-dealers in connection with client securities transactions ("soft dollar benefits"). LifePro Asset Mgmt may enter into soft-dollar arrangements consistent with (and not outside of) the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended. There can be no assurance that any particular client will benefit from soft dollar research, whether or not the client's transactions paid for it, and LifePro Asset Mgmt does not seek to allocate benefits to client accounts proportionate to any soft dollar credits generated by the accounts. LifePro Asset Mgmt benefits by not having to produce or pay for the research, products or services, and LifePro Asset Mgmt will have an incentive to recommend a broker-dealer based on receiving research or services. Clients should be aware that LifePro Asset Mgmt's acceptance of soft dollar benefits may result in higher commissions charged to the client.

Brokerage for Client Referrals

LifePro Asset Mgmt receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

LifePro Asset Mgmt will require clients to use a specific broker-dealer to execute transactions. Not all advisers require clients to use a particular broker-dealer.

Aggregating (Block) Trading for Multiple Client Accounts

If LifePro Asset Mgmt buys or sells the same securities on behalf of more than one client, then it may (but would be under no obligation to) aggregate or bunch such securities in a single transaction for multiple clients in order to seek more favorable prices, lower brokerage commissions, or more efficient execution. In such case, LifePro Asset Mgmt would place an aggregate order with the broker on behalf of all such clients in order to ensure fairness for all clients; provided, however, that trades would be reviewed periodically to ensure that accounts are not systematically disadvantaged by this policy. LifePro Asset Mgmt would determine the appropriate number of shares and select the appropriate brokers consistent with its duty to seek best execution, except for those accounts with specific brokerage direction (if any).

Benefits Provided by TD Ameritrade

LifePro Asset Mgmt participates in the institutional advisor program (the "Program") offered by TD Ameritrade. TD Ameritrade offers to independent investment advisor services which include custody of securities, trade execution, clearance and settlement of transactions. LifePro Asset Mgmt receives some benefits from TD Ameritrade through its participation in the Program.

As disclosed above, LifePro Asset Mgmt participates in TD Ameritrade's institutional advisor program and LifePro Asset Mgmt may recommend TD Ameritrade to clients for custody and brokerage services. There is no direct link between LifePro Asset Mgmt's participation in the Program and the investment advice it gives to its clients, although LifePro Asset Mgmt receives economic benefits through its participation in the Program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving LifePro Asset Mgmt participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have LifePro Asset Mgmt's fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to LifePro Asset Mgmt by third party vendors. TD Ameritrade may also pay for business consulting and professional services received by LifePro Asset Mgmt's related persons. Some of the products and services made available by TD Ameritrade through the Program may benefit LifePro Asset Mgmt but may not benefit its client accounts. These products or services may assist LifePro Asset Mgmt in managing and administering client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help LifePro Asset Mgmt manage and further develop its business enterprise. The benefits received by LifePro Asset Mgmt or its personnel through participation in the Program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, LifePro Asset Mgmt endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by LifePro Asset Mgmt or its related persons in and of itself creates a conflict of interest and may indirectly influence the LifePro Asset Mgmt's choice of TD Ameritrade for custody and brokerage services.

Benefits Provided by Charles Schwab & Co., Inc.

Custody and Brokerage Costs

Schwab generally does not charge LifePro Asset Mgmt client accounts separately for custody services but is compensated by charging clients commissions or other fees on trades that it executes or that settle into your Schwab account. Schwab's commission rates applicable to LifePro Asset Mgmt client accounts were negotiated based on our commitment to maintain LifePro Asset Mgmt client assets in accounts at Schwab. This commitment benefits you because the overall commission rates you pay are lower than they would be if LifePro Asset Mgmt had not made the commitment. In addition to commissions, Schwab charges a flat dollar amount of \$4.95 as a "trade away" fee for each trade that LifePro Asset Mgmt executes by a different broker-dealer but where the securities bought or the funds from the securities sold are deposited (settled) into a Schwab account. These fees are in addition to the commissions or other compensation you pay the executing broker-dealer. In order to minimize trading costs, LifePro Asset Mgmt will use Schwab to execute trades for your account if LifePro Asset Mgmt believes it is in your best interest to do so.

Products and Services Available to Us from Schwab

Schwab Advisor Services is Schwab's business serving independent investment advisory firms like LifePro Asset Mgmt. They provide LifePro Asset Mgmt and our clients with access to its institutional brokerage – trading, custody, reporting and related services – many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our clients' accounts while others help us manage and grow our business. Schwab's support services generally are available on an unsolicited basis (i.e., LifePro Asset Mgmt does not have to request them) and at no charge to us as long as we keep a percentage of our clients' assets in accounts at Schwab. Below is a detailed description of Schwab's support services:

Schwab Services that Benefit You. Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab's services described in this paragraph generally benefit you and your account.

Schwab Services that May Not Directly Benefit You. Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist LifePro Asset Mgmt in managing and administering our clients' accounts. They include investment research, both Schwab's own and that of third parties. LifePro Asset Mgmt may use this research to service all, some or a substantial number of our clients' accounts. In addition to investment research, Schwab also makes available software and other technology that:

- provide access to client account data (such as duplicate trade confirmations and account statements);
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
- provide pricing and other market data;
- facilitate payment of our fees from our clients' accounts; and
- assist with back-office functions, recordkeeping and client reporting.

Schwab Services that Generally Benefit Only Us. Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- educational conferences and events;
- technology, compliance, legal, and business consulting;
- publications and conferences on practice management and business succession; and
- access to employee benefits providers, human capital consultants and insurance providers.

Schwab may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. Schwab also may discount or waive its fees for some of these services or pay all or a part of a third party's fees. In addition, Schwab may provide LifePro Asset Mgmt with other benefits such as occasional business entertainment of our personnel.

LifePro Asset Mgmt's Interest in Schwab's Services

The availability of these services from Schwab benefits us because LifePro Asset Mgmt does not have to produce or purchase them. LifePro Asset Mgmt does not have to pay for Schwab's services so long as we keep a percentage of client assets in accounts at Schwab. This creates incentive to recommend clients maintain their account with Schwab based on our interest in receiving Schwab's services that benefit our business rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest.

LifePro Asset Mgmt believes, however, that our selection of Schwab as custodian/broker is in the best interests of our clients. It is primarily supported by the scope, quality and price of Schwab's services (based on the factors discussed above) and not Schwab's services that benefit only us.

Item 13: Review of Accounts

Portfolio Management including LPAM Tactical Investment Strategy Services

All client accounts for LifePro Asset Mgmt's advisory services provided on an ongoing basis are reviewed at least monthly by Robert Reaburn, Managing Director, with regard to clients' respective investment policies and risk tolerance levels. All accounts at LifePro Asset Mgmt are assigned to this reviewer.

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

Each client of LifePro Asset Mgmt's advisory services provided on an ongoing basis will receive a monthly written report detailing the client's account, including assets held, asset value, and calculation of fees.

Financial Planning

All financial planning accounts are reviewed upon creation and plan delivery by Robert Reaburn, Managing Director. There is only one level of review for financial planning, and that is the total review conducted to create the written financial plan.

With respect to financial plans, LifePro Asset Mgmt's services will generally conclude upon delivery of the financial plan.

Item 14: Client Referrals and Other Compensation

Client Referrals and Other Economic Benefits

As described under Item 12 above, we receive an economic benefit from TD Ameritrade and Charles Schwab in the form of the support products and services it makes available to us and other independent investment advisors that have their clients maintain accounts with these institutions. These products and services, how they benefit us, and the related conflicts of interest are described above (see Item 12 – Brokerage Practices). The availability to us of these products and services is not based on us giving particular investment advice, such as buying particular securities for our clients.

As described in Item 4 and Item 5, LifePro Asset receives compensation from third party managers such as AssetMark, Loring Ward, American Funds, and others, to which LifePro Asset directs clients. In these instances, a referral arrangement is in place in which LifePro Asset Mgmt, or its representatives, acts as a solicitor on behalf of these entities.

LifePro Asset Management may receive “non-cash benefits” from time to time by LifePro Financial Services. LifePro Financial Services may offer LifePro Asset Management the ability to attend industry-related conferences or other benefits based on activities as an Insurance Agent.

Other Compensation

LifePro Asset Mgmt may, via written arrangement, retain third parties to act as solicitors for LifePro Asset Mgmt's investment management services. All compensation with respect to the foregoing will be fully disclosed to each client to the extent required by applicable law. LifePro Asset Mgmt will ensure each solicitor is properly registered in all appropriate jurisdictions. All such referral activities will be conducted in accordance with Rule 206(4)-3 under the Advisers Act, where applicable.

For individuals which solicit clients to LifePro Asset Mgmt, and to whom we pay a referral fee, we require the Solicitor to provide the prospective client with a copy of this document (our Firm Brochure) and a separate disclosure statement that includes the following information:

- the Solicitor's name and relationship with our firm;
- the fact that the Solicitor is being paid a referral fee;
- the amount of the fee; and
- the fee paid to us by the client is NOT increased above our normal fees in order to compensate the Solicitor.

Item 15: Custody

When advisory fees are deducted directly from client accounts at the client's custodian, LifePro Asset Mgmt will be deemed to have limited custody of client's assets and must have written authorization from the client to do so. **LifePro Asset Mgmt does not have physical or constructive custody for any client accounts.** Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

When advisory fees are deducted directly from client accounts at client's custodian, LifePro Asset Mgmt will be deemed to have limited custody of client's assets. Because client fees will be withdrawn directly from client accounts, LifePro Asset Mgmt will:

- (A) Possess written authorization from the client to deduct advisory fees from an account held by a qualified custodian.
- (B) Send the qualified custodian written notice of the amount of the fee to be deducted from the client's account and verify that the qualified custodian sends invoices to the client.
- (C) Send the client a written invoice itemizing the fee upon or prior to fee deduction, including the formula used to calculate the fee, the time period covered by the fee and the amount of assets under management on which the fee was based.

Clients will receive all account statements and billing invoices and they should carefully review those statements for accuracy. Clients are urged to compare the account statements they received from custodian with those they received from LifePro Asset Mgmt as our statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

LifePro Asset Mgmt provides discretionary investment advisory services to clients. The Investment Advisory Contract established with each client sets forth the discretionary authority for trading. LifePro Asset Mgmt manages the client's account and makes investment decisions without consultation with the client as to when the securities are to be bought or sold for the account, the total amount of the securities to be bought/sold, what securities to buy or sell, or the price per share. In some instances, LifePro Asset Mgmt's discretionary authority in making these determinations may be limited by conditions imposed by a client in investment guidelines or objectives, or client instructions otherwise provided to LifePro Asset Mgmt.

Clients with discretionary accounts will execute a limited power of attorney to evidence discretionary authority. LifePro Asset Mgmt will also have discretionary authority to determine the broker dealer to be used for a purchase or sale of securities for a client's account.

Item 17: Voting Client Securities (Proxy Voting)

LifePro Asset Mgmt will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security and/or the custodian. Further, LifePro Asset Mgmt typically does not advise or act for clients with respect to any legal matters, including bankruptcies and class actions, for the securities held in clients' accounts.

Item 18: Financial Information

LifePro Asset Mgmt neither requires nor solicits prepayment of more than \$1,200 in fees per client, six months or more in advance, and therefore is not required to include a balance sheet with this brochure.

LifePro Financial Services, Inc., a majority owner of LifePro Asset Management, LLC as disclosed in Item 4, has accepted a loan under the Paycheck Protection Program (PPP) in the amount of \$576,685. An informal expense sharing agreement exists between the two entities, and as such the acceptance of this loan may be seen as material information in regard to LifePro Asset Management's financial circumstances. Specifically, LifePro Financial is responsible for all operating expenses, including employee salaries, of LifePro Asset Management. In turn, LifePro Asset Management reimburses LifePro Financial for certain expenses on a pro-rata basis monthly. The acceptance of these funds under the PPP was taken in an abundance of caution as the impact and extent of the Coronavirus (COVID-19) crisis was and remains unknown. At the time of publishing this disclosure brochure, acceptance of this loan does not impact LifePro Asset Management's ability to meet our contractual commitments to you, the client. Should this statement become materially inaccurate, we will amend and notify the client at such time.

Neither LifePro Asset Mgmt nor its management has any financial condition that is likely to reasonably impair LifePro Asset Mgmt's ability to meet contractual commitments to clients.

LifePro Asset Mgmt has never been the subject of a bankruptcy petition.
